REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Applicant's comparative data in the specification at pages 57 through 67 indicate unexpected results for the presently claimed polyacetal compositions in decreasing formaldehyde emissions while maintaining and/or improving properties in molding workability and processability as compared to closely related prior art compositions which are devoid of one of the required components of applicant's claimed invention.
2. Newly cited Patent No. 6642289 addresses the problem of decreasing formaldehyde emissions in polyacetal compositions, by using a glyoxyldiureide. This reference is seen to provide technological background information.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kriellion A. Sanders whose telephone number is 571-272-1122. The examiner can normally be reached on Monday through Thursday 6:30-7:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Vasu Jagannathan can be reached on 571-272-1119. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
